

# The Living Landscape

Animals in Parks and Gardens of Essex

*The dedicated research team of Essex Gardens Trust have uncovered a wealth of rarely published information, providing a fascinating and comprehensive insight into the role of animals in the designed landscape. From bee boles to deer parks, fishponds to menageries, aviaries, dovecotes, warrens and stables, a captivating picture of a vibrant and moving landscape unfolds as we are invited to peer over the garden wall.*

***Edited by Dr Twigs Way***
